Welcome to New Holland's Precision Land Management Portal

Dear visitor,

The PLM website has been created to serve you, providing online information and services. This new website allows you to get the most from using New Holland products. Adobe Reader is required to view some pages that are saved in PDF format. If you require this application, it can be downloaded from <http://www.adobe.com>

Powerpoint viewer is required to view some pages that are saved as PowerPoint format. If you require this application, it can be downloaded from: <http://www.microsoft.com/downloads>

Why register to PLM Portal

All are welcome to both view but more importantly register. When you register you can inform yourself about Precision Farming and Auto Guidance. We will also keep you informed about the latest Precision Farming and Guidance technologies.

PLM Support

In addition to providing information on New Holland's Precision Farming and Auto Guidance products, the PLM website provides support to New Holland customers who have purchased PLM equipment. The PLM or PFS key provided with our Precision Farming products allows additional functionality of the website to be accessed, giving deeper, more specific information, and providing access to training courses or on-line support.
